

Industrial Design & Modelling

Point of Contact: Deeptish Pawar
(deeptish.pawar@airbus.com)

Industrial Design & Modelling

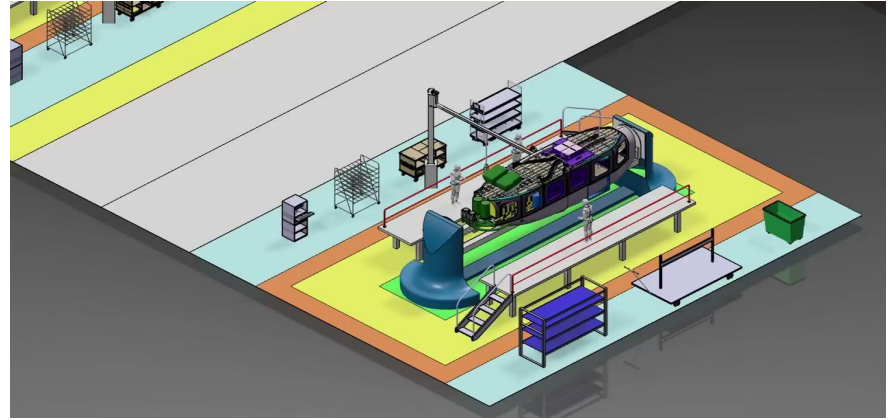

- Support LT & WL for Industrial Architects
- Develop SIIKDB tool, to predict WL

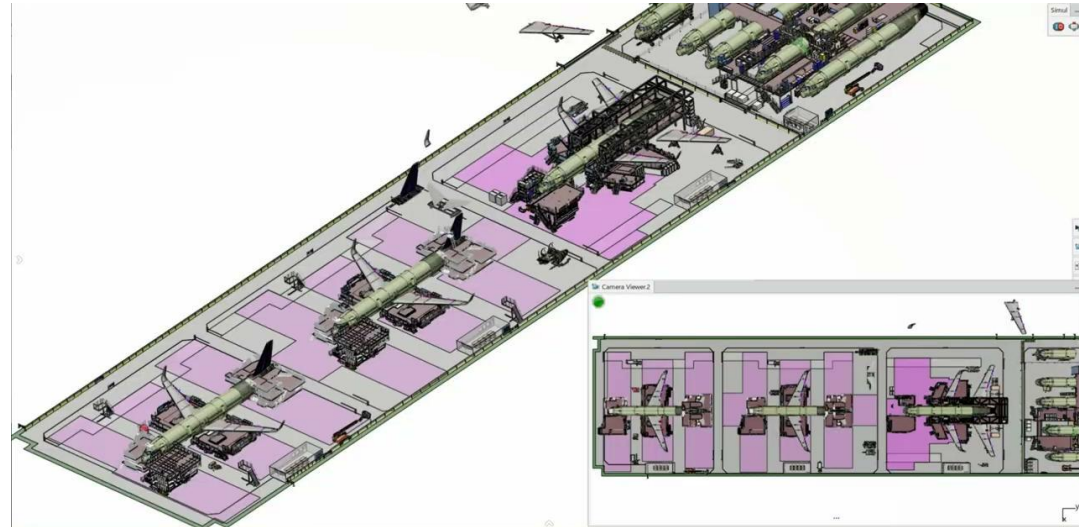

Industrial Design & Modelling

ZeroE Build Concept of POD

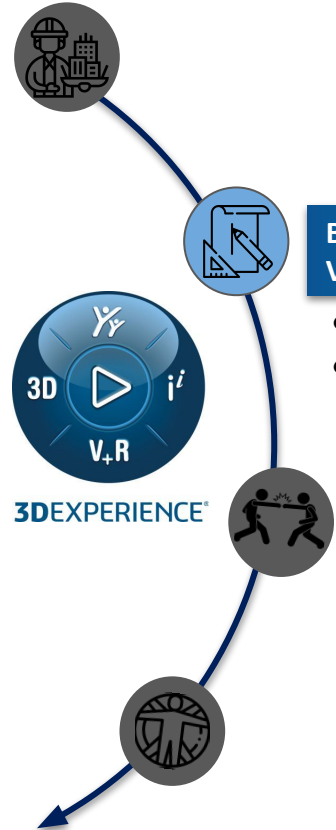

Build Sequence Validation

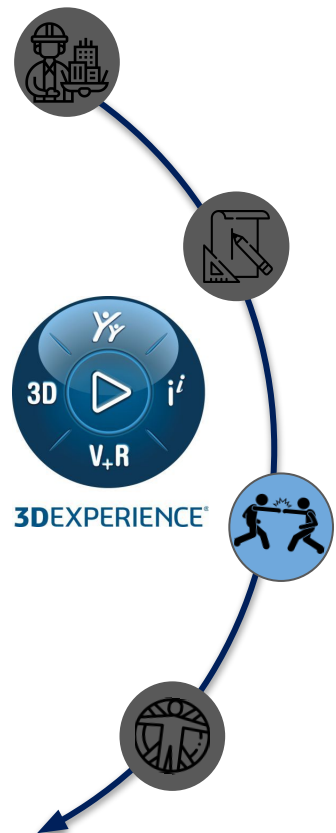

- Validate the Build Sequence
- De-Risking the Industrial Systems

FAL Mobile - Process Validation

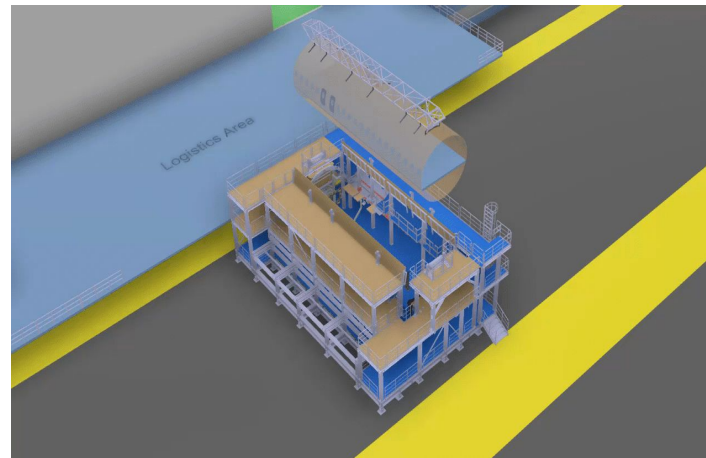

Industrial Design & Modelling

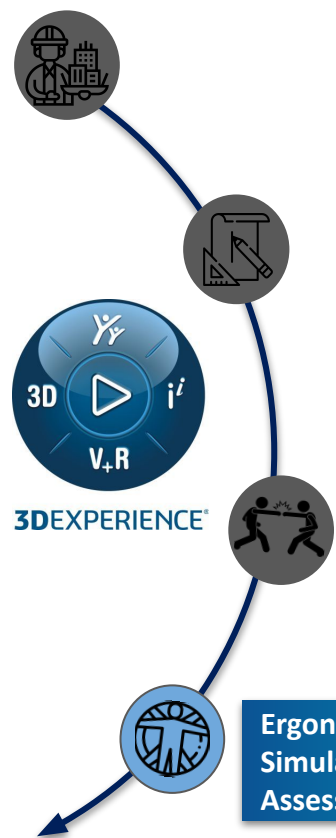

Clash Analysis & Validation

- Enablers of Co-Design & Co- Develop
- Assembly Sequence Validation in terms of clashes

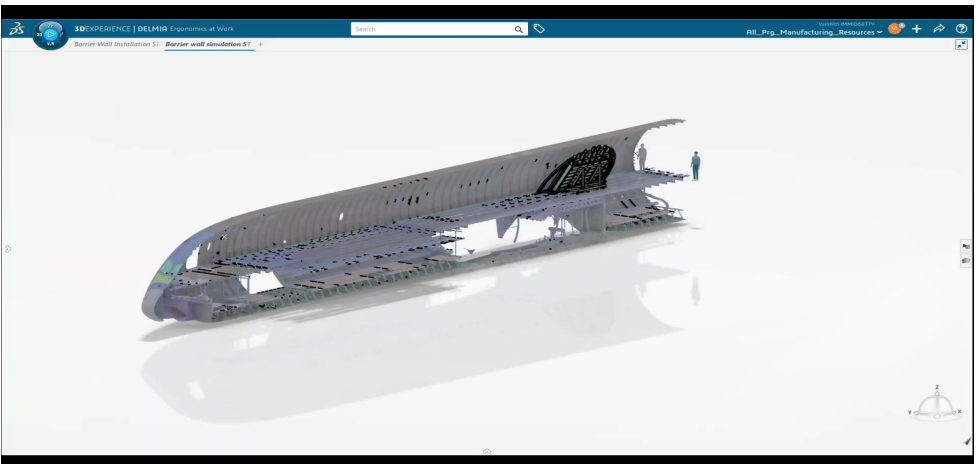

Clash analysis for H259 , HAM

Industrial Design & Modelling

A350F Barrier Wall
Integration at FAL TLS

- Ergonomic Analysis
- EMMA & RULA analyses
- Ensuring Health & Safety standards

Ergonomics
Simulation &
Assessment

Flextrack robot
installation for FAL
Mobile
